solutions in movement

Thomas Regout International B.V. offers a broad range of sliding solutions that help move your application in any direction: horizontal, vertical and diagonal.

Our slides can be found in a wide range of applications in many market segments. In our long history we have grown into the company we are today: a major innovative player in automotive and industrial markets, as well as in furniture, professional storage and audio visual segments. We are continuously broadening our product range with new product groups, features and other solutions to fulfil your needs.

Trade

We supply a broad stock item program to our worldwide customers offering horizontal, vertical and diagonal movement solutions. These products are on stock at our company, but you can find these standard sliding solutions at our worldwide distributors too. The products are carefully selected on their characteristics and capabilities for different kinds of furniture and industrial applications. No matter where you are located, we can guarantee a swift and accurate delivery.

Our main focus is to be and to remain the best quality partner for our customers in mutual beneficial partnerships: a partnership that adds value and strengths to your and our organization.

Products Furniture Program

Ulf HD The Ulf HD is a 3 beam slide to offer a 100% to 130% extension with a load capacity of approximately 100 kg. This slide can be used together with different features as a soft-close, pull in, disconnect and many more for the office, kitchen and shopfitting markets.

Titan The Titan is a heavy duty slide with a load capacity up to 200 kg combined with a travel of 130%. This type of slide is applicable in heavy loaded storage systems for kitchens and shopfitting applications.

Products Industrial Program

FlexFit The FlexFit combines a profile and an easy to fit carrier. This linear guide can be used in vertical, horizontal and diagonal direction. By using high quality components we guarantee a long service life. Typical applications for the FlexFit are vending and ticketing machines as well as sliding doors.

TR-7619 The TR-7619 is very robust and rigid due to the material thickness. This roll formed, extra heavy duty telescopic slide exceeds a load capacity of 300 kg with a minimum of deflection. The TR-7619 is used for industrial applications, loading platforms and special vehicles.

“Customers worldwide are thrilled to find that we have a solution for their specific challenges.”
